PROMOZONE ACADEMY

Promozone Academy is a practical digital skill training platform powered by **Promozone 360**, a working digital marketing agency.

This gives our students a unique advantage — you don't just learn theory, you learn directly from real industry experience, real client work, and real strategies that are currently working in the market.

Our programs are designed to help students, freshers, and aspiring freelancers learn, apply, and start earning using proven digital marketing methods.

At Promozone Academy, we focus on hands-on learning, real business exposure, and income-generating skills, so you can confidently step into the digital world.

VISION

To become a leading skill-based training platform that empowers individuals to create sustainable income opportunities through digital skills, guided by real industry expertise.

MISSION

- To deliver practical, real-world training backed by agency experience
- To bridge the gap between learning and actual client work
- To provide exposure to live projects and real business scenarios
- To help students build income-generating skills with confidence

COURSE OVERVIEW

The Digital Income Bootcamp is a structured, hands-on program designed to take you from beginner to earning-ready, guided by professionals who actively work with clients.

You will learn:

- Local business marketing (Google & social presence)
- Instagram content strategy and growth
- Canva-based content creation
- Paid advertising basics (Facebook & Instagram)
- Client acquisition and freelance setup
- The final phase includes offline live experience, where you will work on a real business and apply strategies used by our agency.

Why Choose Us

- Agency-Based Learning – Learn from a real digital marketing team
- Practical Approach – No unnecessary theory
- Live Project Experience – Work on real businesses
- Income-Focused Training – Skills that help you earn
- Beginner Friendly – No prior experience needed
- Templates & Tools Provided
- Career & Freelance Guidance

Learning Method

At Promozone Academy, our learning approach is designed to be simple, practical, and result-oriented. We follow a “Learn → Apply → Experience” model to ensure every student gains real skills, not just knowledge.

- Concept clarity
- Hands-on Practice
- Real Business Exposure
- Income Focused Training
- Continuous Guidance

By following this method, you will move from

“I don’t know anything” → “I can confidently start working & earning”

Results You Can Expect

By the end of this program, you will:

- Understand how real client projects are handled
- Create and manage social media content professionally
- Run basic ad campaigns for lead generation
- Approach and acquire clients confidently
- Start freelancing or take up entry-level roles
- Build a portfolio with real project experience from an agency environment

Most importantly, you will gain practical confidence and a clear path to start earning.
